WATER SOFTENERS

Solid built cabinet

Digital Display

Easy to use

Suitable to fit any kitchen

WHY DO YOU NEED SOFTENED WATER?

Rain water passing through the layers of coil and rocks absorbs mineral salts. In many cases these mineral salts cause the water to become 'hard', causing scale in hot water systems, scum around baths and sinks, and blocking shower heads. Removing this hardness gives you all the benefits of soft water, wherever you live

SAVING MONEY

Scale builds up in pipes, boilers, washing machines and dishwashers. Just 1.6mm of scale build up in heating systems causes a 12% loss in heating efficiency, adding hundreds of pounds to heating bills. Scale also reduces the life of this equipment. Softened water stops scale build up, and can remove existing scale deposits in hot water systems as well as the scale around taps, in shower heads and stains on baths and showers.

SILKY FEELING SKIN, SOFTER LAUNDRY

Softened water has a clean silky feeling. Showers feel luxurious, hair is left feeling soft and bath time is full of bubbles. Softened water makes laundry feel softer, reduces the use of detergent and other chemicals.

Features and Benefits

- Save money on energy bills
- Eliminate expensive maintenance bills
- Remove traces of scale in the shower, bath or sink
- Give your skin a silky clean feeling
- Make your laundry feel softer and look brighter
- Reduce the high cost of soap and detergents

Invest in a water softener and save money for years

Model	
Height	585mm
Width	250mm
Depth	480mm
Capacity	12.5 Litres
Treated water at 330ppm hardness	2080 Litres
Suitable for	1-4 People
Inlet/Outlet	3/4"
Power	240V
